

Product Information

Quality contract vinyl wallcovering with non-woven fabric (TNT) backing, 380 g/m².

Sign Project Wallpaper is a high-quality wallcovering, suitable for both traditional and contemporary interiors. It's highly durable, fire-resistant, color-stable, washable, scratch- and impact-resistant, making it an ideal choice for hospitality settings and commercial spaces.

Finish

Matte textile weave. The texture adds a touch of refined luxury. Other finishes available on request.

Technical features

Total weight 380 g/m² - Total thickness (-/+): 0.30 mm ÷ 0.34 mm

Size: in rolls 102 cm wide for the desired height

Fire resistance

Reaction to fire: B-s2, d0 according to Euroclass EN 13501-1:2018

Class "A" according to ASTM E84-18a

IMO certified for marine use in compliance with international safety requirements.

Sustainability

VOC emissions Class A+ according to French VOC regulations

CE marking according to EN 15102:2007+A1:2011

Washability
